

Comfortable chemical-resistant gloves, delivering highly durable personal protection

- **Elevated comfort:** AlphaTec® Solvex® 37-676 safety gloves' cotton flocking absorbs perspiration
- **Enhanced grip:** Their reversed lozenge finish grants them better grip, for secure handling
- **Specialized protection:** A high-performance nitrile compound composition delivers EN 374 Type A chemical resistance
- **Optimized durability:** AlphaTec® Solvex® 37-676 industrial gloves' nitrile composition ensures longer wear than similarly thick neoprene or rubber equivalents, with EN level 4 and ANSI level 5 abrasion resistance
- **Guaranteed dexterity:** Their slightly thicker 17 mil/0.43mm make-up belies their ample dexterity
- **Food handling compliance:** Ideal in both wet and dry conditions, these AlphaTec® gloves comply with EU and FDA food handling regulations

Industries

- Automotive
- Food Processing
- Metal fabrication
- Oil and gas
- Chemical
- Agriculture
- Automotive Aftermarket
- Utilities
- Warehousing

Applications

- Delivery of parts to production line
- All food processing applications that have food contact
- Forging operations
- General pumping work
- Handling incoming goods
- Filling, blending and charging of raw materials
- Opening and draining pumps valves or lines
- Loading and unloading of process equipment
- Transferring liquids and solids between vessels and tanks and process equipment
- Supervision of running operation
- Handling outgoing goods: cans, vessels, bulkpack and cartons
- Testing
- Opening furnaces draining pumps valves or lines and crackers BTX process
- Painting or cleaning tools or robots

AlphaTec® Solvex®

37-676

Excellent chemical protection with a good level of grip, fit and comfort

Previously known as: Solvex® 37-676

Key Features

- **Cotton flocking:** Moisture absorbency, for improved wearer comfort
- **Reversed lozenge finish:** Enhanced grip, for safer handling
- **Tough nitrile compound:** Heightened durability and chemical defenses

Vulcanization Chemical Accelerators

- Hexahydro-1,3,5-triethyl-s-triazine
- Zinc Dibutyldithiocarbamate

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
